ABOUT ME

I'm in the process of changing my career path. I've realized that I need a change and a professional growth. I've started with some freelance work on Upwork, such as illustrations, logo designs, social media marketing and web design. And then I discovered a new passion - web development. I've completed many JavaScript, React, Node.js, HTML+CSS courses and plenty hours of self-learning and I'm eager for more things to come.
